New European technology provides advanced medical care

Al Rawdah German Medical Center in Abu Dhabi has invested in not only bringing 100% German qualified and experienced doctors to the region, but also bringing the latest Western European technology.

A new insole measurement system used by the Orthopaedics Department is the latest medical equipment to be introduced to the center, and compliments the magnetic resonance imaging (MRI) technology also on offer at the Center.

2,500 AED raised for Future Center for Special Needs

Over 400 people attended the Al Rawdah German Medical Center's Open Day and Kidz Fest recently and together raised AED 2,500 for the Future Center for Special Needs – a not-for-profit organisation in Abu Dhabi which specializes in the education and rehabilitation of individuals aged between 3 and 14 years with disabilities.

About GGH

The German General Hospital will be a modern 230 bed hospital occupying an area in excess of 46,000 square metres. The hospital will offer a premium but comprehensive range of secondary and tertiary clinical specialties, delivered by the most experienced and qualified practitioners.

The mission of the hospital is to provide a high quality German standard healthcare that will exceed the expectations of all service users. The hospital is intended to become the hospital of choice for the local population as well as drawing patients from across the Emirates and beyond.

The hospital is located in Khalifa City A; situated on Al Raha Beach along the main highway that links Abu Dhabi to Dubai. The hospital is close to Abu Dhabi International Airport and nearby are extensive shopping, leisure, business and educational facilities.
